

Ms Sharon Harnage has asked that a \$50 fee be added to any Hotel/Motel return that does not have their Georgia Sales & Use Tax Report attached when filing with the county. Here is some additional information below.

Subject: RE: Tourism Authority

That would be great. I do not know what would be entailed in requiring the Businesses to provide a copy of the state tax return, however I know that it is required in other counties that I do work for. Here is the wording on the instructions for one of the counties that I prepare the Hotel Motel tax returns for.

ATTACHMENT The monthly return required by the State of Georgia (Form ST-3) is an integral part of the Hotel/Motel Tax Return. A copy of the Georgia Sales and Use Tax Report must accompany this return. A penalty of \$50.00 will be imposed for failure to attach a copy to each monthly report.

I only bring this up because of my profession. I have seen Hotels report one thing to local government and something totally different to the state. Not necessarily in Cook County mind you, but it happens.

Tourism Authority –
