

Request for Board of Commissioners' Action

From: Faye Hughes, County Administrator Date: 5/21/2018

Subject: Security Systems Item Number: VII-A

We have been working with Alerttech to put together a proposal for security systems throughout the County buildings.

This proposal is for equipment and monitoring. A few weeks ago there was an issue at the Courthouse which got everyone's attention including the judges. They and April have worked with Justin Bennett from Alerttech to be able to provide the equipment needed.

I believe you are aware of some security cameras that have been placed in various offices and at the Road Dept. Some of those cameras only keep a 30 day backup and are not monitored off sight. That is what this equipment will provide. April has spoken to the Sheriff about this proposal and he is satisfied with it.

The following are prices for the equipment purchase:

Courthouse	\$2950 parts/labor	\$30 maintenance per month
Courthouse Annex	\$2950 parts/labor \$2750 parts/labor	\$40 maintenance per month \$30 maintenance per month
Administration Office	\$2750 parts/labor	\$30 maintenance per month
Road Dept	\$3250 parts/labor	\$30 maintenance per month
Landfill (Barn)	\$1250 parts/labor	\$10 maintenance per month
Landfill (Shop)	\$1250 parts/labor	\$10 maintenance per month

The total for parts/labor is \$17,150 then the cost would be maintenance. \$14,650 will be paid from the General Fund and \$2500

Having seen what other communities have faced over the last few years, it is my recommendation the Board approve this proposal. Our office has been protected by Alerttech since before the building was purchased by Cook County. If we have a problem they usually come right away.
