

# Request for Board of Commissioners' Action

From: Faye Hughes, County Administrator Date: May 18, 2018

Subject: Landfill Tractor Bids Item Number: VII-B

Due to the need for 2004 New Holland T110 tractor at the Road Department, the Landfill was left without a tractor to pull a 7' mower. The size tractor they have is too big to go through the areas that have to be kept mowed.

I used the specs from the 2004 bids to request bids. Bids are as follows:

## Tractor Bids

Vender	Tractor type	Price	Tractor Weight
Perrin Farm Equipment	Kubota M5-111	\$47,900.00	7033
Lasseter Tractor Co., Inc.	JD 5100E Utility Tractor	\$49,200.00	8150
Nashville Tractor, Inc.	New Holland TS6.110	\$55,000.00	11200
Nashville Tractor, Inc.	Kubota M5-111	\$51,750.00	7033
Demott	No bid		

There are funds available in the Landfill account for the purchase. They will also be needing a bat-wing mower to be pulled by the bigger tractor. In the past, in order to cut cost, the Road Department mowers mowed the open areas of the landfill. Due to time constraints and number of projects currently facing the Road Department the availability of those mowers may be limited.

Motion made by \_\_\_\_\_ to accept bids from \_\_\_\_\_  
In the amount of \_\_\_\_\_ for use at the Landfill.

Second made by \_\_\_\_\_
