A timeline for the new road that will connect Wood Subdivision – Fox Run Subdivision. Mr. Crumbley will look at the site to determine equipment that will be needed, then he will report back to the board to discuss the project start date.

Courthouse Roof – The Board discussed the courthouse roof, the foam roofing was installed in 2010 by Southern Urethane and retested in 2014; and, at that time the county was given an additional 10 year guarantee. The company has since dissolved. Daniel Connell, County Attorney, will follow through with legalities against the company.

The board decided to send out an RFQ in search of an architect to design a new roof for the courthouse.

Ralph Nava, Pine Valley VFD, presented findings from the recent inspection made by Standards and Training, such as the lack of documented training. Most of the volunteer departments are out of compliance regarding training records. The volunteers were given until the end of 2018 to have 48 hours of document training or retake the 80 hour-volunteer class. According to Standards & Training, there are no other options, the volunteers have been told since 2008 by Standards & Training to document training, in 2016 the departments were made aware that the state requirement would be policed for compliance.
