### **Cook County Fire Services Improvement Plan**

Adel, Georgia, September 28, 2018 – Cook County Georgia is currently providing fire protection to its citizens by utilizing independent volunteer departments. Stations and personnel are located in different geographic regions of the county and operate under individual station chiefs. In an effort to enhance fire protection to the citizens of our county, the Cook County Board of Commissioners has contracted with a consulting firm to analyze our current operations and make recommendations for enhancement. Our citizens are invited to attend a public meeting on Thursday, October 4, 2018 at 7:00PM in the Commission meeting room located at 1200 South Hutchinson Ave. in Adel, Ga. to ask questions and provide input on the process of improving county fire services.
