# BATTLE ARMOR

## CULVERT CLEANER

### ATTACHES EASILY TO YOUR TRACK-HOE OR BACK-HOE BUCKET

Clean culverts quickly and easily with the **NEW Battle Armor Culvert Cleaner**, manufactured by Bad Boy Mowers. Unique sweeping scoop paddles expand open when pulling debris and rocks from culverts as small as 12" in diameter and over 36" in diameter. Rocks and debris larger than 2' diameter and over 150 lbs. are no match for the Battle Armor Culvert Cleaner. Specifically designed to tackle the most difficult clogs! Especially under low water bridges, concrete or steel culverts, beaver dams and irrigation culverts. Lifting force can even be used to straighten and repair crushed steel culverts.

### ATTACHES QUICKLY—WORKS FAST

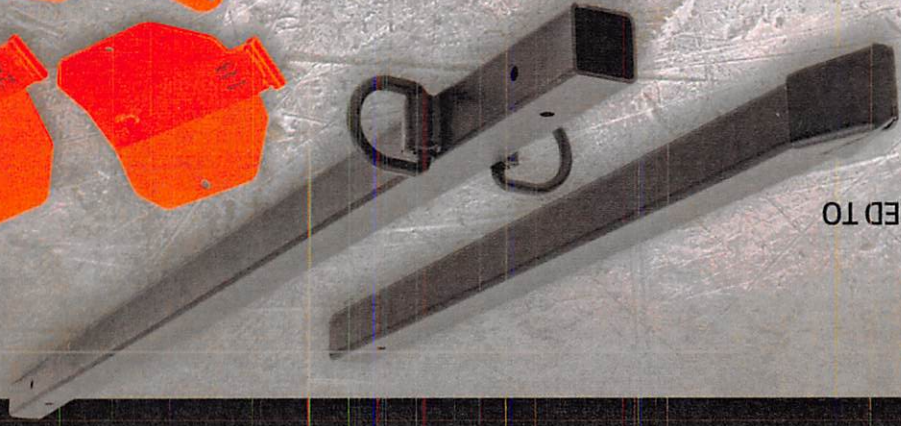

Attach the Battle Armor Culvert Cleaner into the bucket with a chain for easy installation and simply push into clogged culvert to remove debris. It's that easy—and quick!

# BATTLE ARMOR

COMES WITH EVERYTHING YOU NEED TO GET STARTED CLEARING CULVERTS.

Consists of an extender for especially deep culverts and bridges, plus metal culvert repair extension. Comes with three sets of scoop paddles (4 each) plus attaching chain and come-along. A lighter-weight bucket brace for smaller buckets or mini excavators and less demanding jobs is available as an option.

Paddle feature reinforced back plates for rigid performance.
